What to watch for

- Before applying for scholarships, check with your college/university or training school to see how receiving a scholarship may affect your overall financial aid.
- Beware of scholarship scams. A tip-off could be if the firm “guarantees” or “promises” scholarships or grants.

General financial aid tips

- Find out from the colleges you are applying to whether they require financial aid applications other than the FAFSA.
- Be aware of financial aid and scholarship deadlines, and meet them.
- Print copies of all applications submitted online. Keep photocopies of all paper forms and correspondence sent.
- Be sure to identify all correspondence sent with the student's name and Social Security number, if required.
