

# Financial Aid & Managing College Costs

Find these links and more at [vsac.org/pay-resources](https://vsac.org/pay-resources)

## Move the discussion of costs to the beginning of the college search, keeping options open

1. Know your starting point: **Federal Student Aid Estimator** [vsac.org/resources/fsa-estimator](https://vsac.org/resources/fsa-estimator)
2. Know the college starting point: **Net Price Calculator** [www.nces.ed.gov/collegenavigator/](https://www.nces.ed.gov/collegenavigator/)
3. Evaluate household future budget (child in college).

## Strategies for lowering college costs

### In high school:

1. Take Introduction to College Studies (ICS) to prepare for college enrollment.
2. Find out what free college classes/credits are available at your high school.
3. Consider dual enrollment/early college programs.

### While creating your college list:

1. Consider the New England Regional Tuition Program: [nebhe.org](https://nebhe.org)
2. Check out work colleges and tuition-free colleges: [workcolleges.org](https://workcolleges.org)
3. Broaden your college list — in-state and out, public and private, Canada.

### In college:

1. Power through your degree; graduate on time or early.
2. Start at a less expensive college, then transfer.

## Strategies to increase financial aid

1. Do well in school and challenge yourself.
2. Increase school and community involvement.
3. Research scholarship opportunities now and prepare for applications.
4. Go where you are wanted.
5. Ask for more money based on strong performance.

## Strategies for paying for college costs

1. Past income: **savings** and/or **529 plans**
2. Current income: including **tuition payment plans, work-study**
3. Future income: **loan programs** <https://studentloanhero.com/calculators/>
  - What does repayment look like?
  - What income is needed to support loan repayment?
  - Should a parent take on debt?
3. Research **loan forgiveness programs** <https://studentaid.ed.gov/sa/repay-loans/forgiveness-cancellation>

## Maximize payback for college costs

Over time, a college education has had a return average more than double that of the stock market, and—unlike a car—is an asset that appreciates over time. You can influence the strength of the return.

To make the most of your investment, get connected on campus and take advantage of any opportunities you can—internships, activities, study abroad, work-study, faculty talks, career counseling, etc. *Connect, connect, connect!*
