### PROGRAMS

Available majors and academic opportunities (study abroad, internships, cooperative degree programs, etc.)

### FOCUS

- Transfer institution offering agreements/guaranteed admission with 4-year schools
- Specialized specialties
  - Professional/industry-focused (culinary, art, aeronautics)
  - Historically Black Colleges and Universities
  - Hispanic-Serving Institutions
  - Tribal Colleges
  - Religious/Faith-based
  - Research intensive vs. teaching focused

### ACADEMIC CHARACTERISTICS

#### LEARNING ENVIRONMENT

- Large vs. small. What is the student-to-faculty ratio? (Be sure to ask how the ratio is determined.)

#### SPECIAL PROGRAMS

Cooperative degree programs, such as combined bachelor’s/master’s programs, guaranteed admission programs from community college to a 4-year school.

#### STUDENT SATISFACTION

Retention and graduation rates. How many students return for their sophomore year? How many students graduate in 4 years/6 years?

### NEXT STEPS

How many students go on to grad school? Can the school help me find a job? Where are the school’s alumni working?

### SUPPORT MECHANISMS

Find out about
- First-year experience programs, freshman seminar classes
- Academic advising and facilities, such as Math Labs, Writing Centers, Disability Support Services, and support for "undeclared majors"

### HOW TO GET TO KNOW A SCHOOL

#### VISIT

- Walk around to get a sense of the climate and culture of the school
- Talk to students and faculty
- Eat in the cafeteria

#### IF YOU CAN’T VISIT IN PERSON

- Take a virtual tour
  - Visit the school’s website
  - Subscribe to a school’s blog
  - Engage in a virtual chat
  - Talk to students who attended your high school and now attend that college or university

#### CAMPUS EXPERIENCE

Learn about clubs, leadership opportunities, campus culture and tradition, religious resources, wellness programs, and campus safety.

#### FINANCIAL ASPECTS

** Factor in federal, state, and institutional or merit aid.**

#### THE REAL BOTTOM LINE

Use a school’s “net price calculator.” Every college/university is required by the federal government to provide this on its website to help you figure out how much you will really pay for the school, factoring in any aid and awards.

### ABOUT THAT MAJOR

Your major doesn’t necessarily dictate who you will be or what you will do.

**Actor Matthew McConaughey**
- Bachelor’s (University of Texas at Austin)

**Actress Brooke Shields**
- Romance Languages (Princeton)

**Comedian/host Conan O’Brien**
- History and American Literature (Harvard)

**Basketball legend Michael Jordan**
- Geography (University of North Carolina)

About 80% of college students change their major at least once.

To show you’re truly interested in a school, make sure you cite any and all of your engagement experiences when applying. Many schools now look for “demonstrated interest” on your application.

### YOU DECIDE!

Your college experience is yours.

- Time to shine. Go somewhere where you can thrive and grow.
- Friendly competition. The best place for you may not be the same as the best place for your friends.
- Attention, parents… The best place for you may not be the one your mom or dad thinks is best. While finances must be considered, the ultimate choice should be a joint decision.

Remember to have fun as you explore. Then, pick a college or YOUniversity that is truly yours!
