

4-year high school course plan

PLANNING FOR COLLEGE

1. Using a pencil, write in the courses you plan to take throughout high school.
 - If you're interested in a career, include courses needed for admission into related programs.
 - consider high school graduation/general admissions requirements for college or training programs / NCAA eligibility requirements / scholarship requirements.
2. Revise your course plan each semester, as needed, and add your grades and credits when you complete each semester.
