Loan Interest Rate & Fees

Your interest rate will be either

3.79%, 5.20% or 6.10%

After the rate is set, it will be fixed for the life of your loan.

Your Interest Rate (upon approval)
The interest rate you pay will be determined when you apply and will be based on which payment option you select and if you are approved for that option. If you choose to make payments of principal and interest while in school, your rate will be fixed at 3.79%. If you choose to make interest-only payments while you are in school your rate will be fixed at 5.20%. If you choose to defer all payments while you are in school your rate will be fixed at 6.10%; this choice is subject to VSAC approval and the availability of funds. If approved, we will notify you of the rate you qualify for based on your payment option.

Your Interest Rate during the life of the loan
Your rate is fixed. This means that your rate will remain the same for the life of your loan. For more information on this rate, see the reference notes.

Your rate will never change during the life of your loan. The rate is determined by your repayment option and will remain constant.

Loan Fees

Origination Fee: The fee that we charge to make this loan will range from 0% to 5% of the approved loan amount and is added to the loan principal. Late Fee: 6% of the amount of the late payment. Returned Check Charge: $10.00.

Loan Cost Examples

The total amount you will pay for this loan will vary depending upon when you start to repay it. This example provides estimates based upon three (3) repayment options that may be available to you while enrolled in school.

About this example: All the repayment examples assume a single disbursement, an origination fee of 5% that is added to the principal amount of your loan, that you remain in school for 4 years and that there is no grace period after you leave school. The Deferred Payment option assumes that repayment begins after you leave school. The Interest-Only Payment option assumes that you will make interest payments while in school and that repayment of the principal and interest begins after you leave school. The Principal and Interest Payment option assumes that repayment begins at final disbursement. For loan amounts of less than $10,000 (not including fees), repayment will last 10 years (120 months) once the initial principal payment is made. For loan amounts of $10,000 or more, repayment will last 15 years (180 months) once the initial principal payment is made.
