### Loan Interest Rate & Fees

**Your Interest Rate (upon approval)**

The interest rate you pay will be determined when you apply and will be based on which payment option you select and if you are approved for that option. If you choose to make payments of principal and interest when the loan is fully disbursed your rate will be fixed at 4.99%. If you choose to delay all payments for 12 months from the final disbursement date your rate will be fixed at 7.40%; this choice is subject to VSAC approval and the availability of funds. If approved, we will notify you of the rate you qualify for based on your payment option.

**Your Interest Rate during the life of the loan**

Your rate **is fixed**. This means that your rate will remain the same for the life of your loan. For more information on this rate, see the reference notes.

---

**Loan Fees**

- **Origination Fee:** The fee that we charge to make this loan will range from 0% to 5% of the approved loan amount and is added to the loan principal.
- **Late Fee:** 6% of the amount of the late payment.
- **Returned Check Charge:** $10.00.

**Loan Cost Examples**

The total amount you will pay for this loan will vary depending upon when you start to repay it. This example provides estimates based upon two (2) repayment options that may be available to you.

**About this example:** All the repayment examples assume a single disbursement, an origination fee of 5% that is added to the principal amount of the loan. The **Delayed Payment option** assumes that repayment begins 12 months after the final disbursement. The **Principal and Interest Payment option** assumes that repayment begins at final disbursement. For loan amounts of less than $10,000 (not including fees), repayment will last 10 years (120 months) once the initial principal payment is made. For loan amounts of $10,000 or more, repayment will last 15 years (180 months) once the initial principal payment is made.
